Owner's Manual

Please read and fully understand this manual before operating your Desk & Travel Pro 1500.

WARNING INSTRUCTION

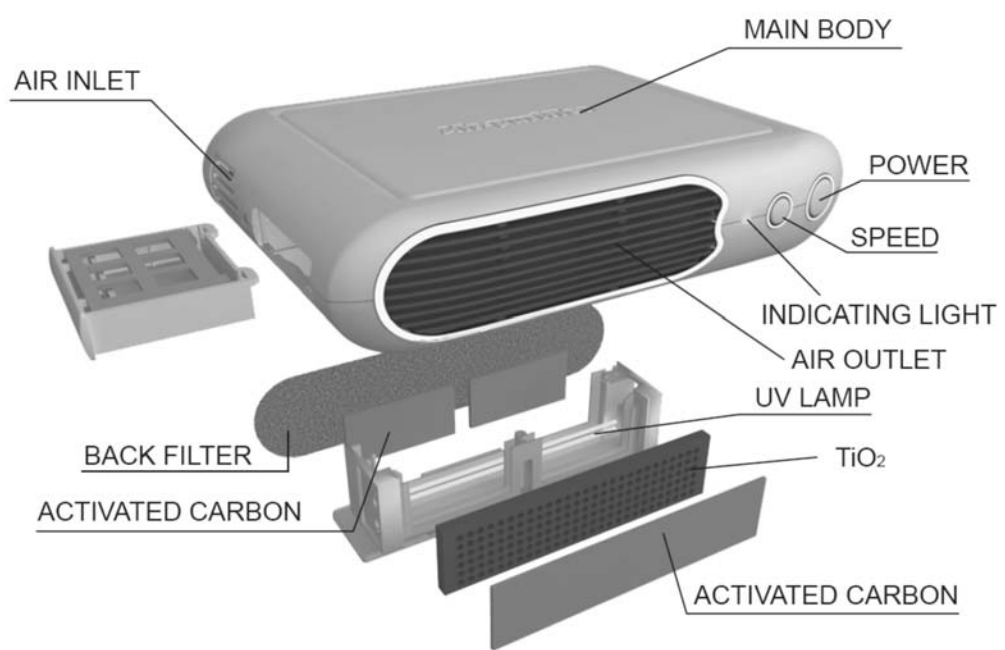

When using any electrically powered product, basic safety precautions should always be followed, including the following:

PLEASE READ ALL INSTRUCTIONS CAREFULLY BEFORE USING THE PRODUCT

1. Do not use the unit at high temperature, high heated conditions and in the environment that has flammable gas.
2. Do not disassemble any part of the unit at random or insert metal pole into the air outlet in order to avoid the risk of electric shock.
3. Always operate the product from a power source of the same voltage, frequency and rating as indicated on the product rating plate.
4. The unit is equipped with automatic protecting switch, when the rear cover is opened, the power will be automatic switched off. The safe automatic protecting switch can not be manually short connected at any time, or else the UV light and high voltage will hurt you.
5. Do not pull out the power connector plug before switch off the unit.
6. Do not allow children to play it as a toy.

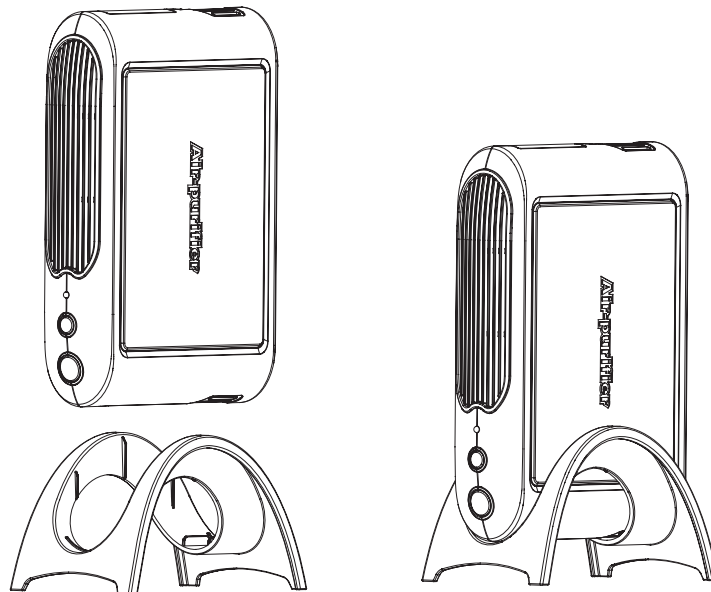

FUNCTION GUIDE

The APA Desk & Travel Pro 1500 uses a high-tech UV lamp and combines with high powered TiO₂ system and activated carbon fittings, plus strong wind cycle settings, all of these make the unit could speedily decompose, oxidate and exterminate the harmful air pollution, reduce the air pollution indoors, improve air quality and build up our bodies. It can be widely used at bedroom, guest room, sickroom, office, laboratory and computer room. In addition, the health-giving negative ions it released and unique essential oil SPA fittings makes you away from fatigue, refresh yourself and enjoy the natural fresh air as much as you like. This unit could be used together with computer as it equipped with USB connector.

OPERATION GUIDE

1. The unit could be laid on the desktop directly, or take out of the base and install the base as showed in the picture, then put the unit upright to save the desk room.
2. Take out of the power adaptor and plug the DC connector plugs into the power socket, then plug the power adaptor into alternating current that its output voltage must be the same with the adaptor. (when connect it to computer, please plug the USB connector plugs into the USB socket of computer, plug the other side into power socket of the unit.)
3. Press the button “POWER”, the unit will work with the light indicating green.
4. Press the button “SPEED” to choose fan speed (H–High, M–Mid, L–Low).
