

## Operating Guide

### Initial Set-up:

1. Remove the unit from the packaging.
2. Open the side-grid air inlet and remove plastic from HEPA/Activated Carbon Filter. Replace all filters and close the side grid.
3. Place unit in location where it will be used (a minimum of 10 inches from the nearest wall, curtains, or furniture) near an electrical outlet.
4. Plug the unit into a 110v/20-30a outlet.

### Operating Instructions:

1. Press the "On/Off" button (the red LED should light) to turn the unit on and off.
2. Press the "Activated Oxygen" button to turn on The Activated Oxygen (the yellow LED should light). It will automatically shut-off in 2 hours.
3. Press the "Speed" button to choose the fan speed. The fan can be set to (H-high, M-Medium, L-Low)
4. Press the "Timer" button to set the run time. 1, 2, 4, or 8 hours can be set.
5. Your Pet Pro 3800 is designed to run 24 hours a day - 7 days a week.

### Important Quick Use Facts:

- For sudden odors, turn fan to "high speed" and turn on Activated Oxygen. This will purify room air rapidly. Return the fan speed to a lower setting about 30 minutes later. The Activated Oxygen will automatically turn itself off in 2 hours or when it is manually switched off.
- To maintain fresh air in your room all the time, it's best to set the speed control to a Low-speed setting and allow the unit to run 24/7.
- For nighttime use, it is best to set the fan speed to a lower setting for quiet, effective all-night air purifying.

## Technical Data

1. Negative Ion:  $>3.0 \times 10^6$  ions/cc
2. Activated Oxygen: 0.025 ppm
3. Air cleaning rate of HEPA filter:  $\geq 99.96\%$
4. Air flow: 65.96 CFM
5. Input voltage: 120/60Hz;
6. Consumed power: 40W
7. Timer Control: Off, 2H, 4H, 8H
8. Fan Speeds: Low, Medium, & High
9. Noise Level: 26db on Low
10. Recommended Working Environment:  
Temperature: 14° - 115° F  
Humidity  $\leq 95\%RH$ ;
11. Dimension: 9.84 x 7.09 x 11.81 inches
12. Unit Weight: 6.15 lbs.
13. Effective area: 320 ft<sup>2</sup>

## Warranty

- ◆ Advanced Pure Air warrants this product to be free from manufacturing and material defects (excluding filters, lights, and batteries) for a period of one year from the original date of purchase.
- ◆ This warranty is valid to the only original owner with a proof of purchase.
- ◆ Product abuse, misuse, modification, alteration, or opening of the air purifier housing will void the warranty.

# Owner's Manual

THANK YOU FOR CHOOSING THE PET PRO 3800.  
BEFORE USING IT, PLEASE READ AND FULLY  
UNDERSTAND THIS OWNER'S MANUAL.

## Important Safety Instructions

When using any electrically powered product, basic safety precautions should always be followed, including the following:

PLEASE CAREFULLY READ & UNDERSTAND ALL INSTRUCTIONS BEFORE USING THIS AIR PURIFIER.

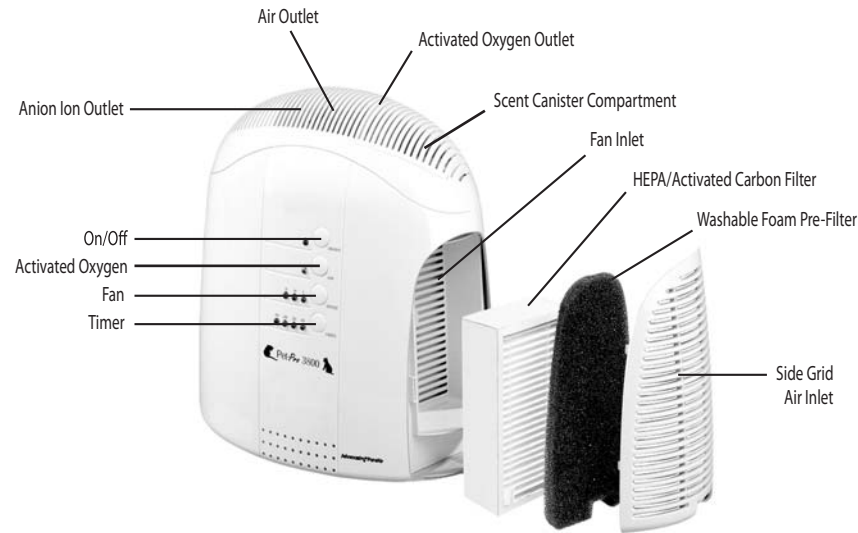

**WARNING - Follow all instructions to reduce the risk of fire, electrical shocks or injury to persons or property:**

1. Always operate your air purifier from a power source of the same voltage, frequency and rating as indicated on the product rating plate.
2. Close supervision is necessary when any electric appliance is used by or near children or invalids. Do not allow children to use it as a toy.
3. Do not operate this unit with a damaged cord or plug, after the product malfunctions, has been dropped, or appears to be damaged in any way. If damaged, return the product in the original carton with all written materials to the place of purchase for inspection, repair or replacement.
4. To reduce the risk of electric shock, do not expose the unit or cord to moisture of any sort.
5. Turn off and unplug from outlet when not in use and before you assemble or disassemble your Pet Pro 3800.
6. ALWAYS turn OFF and unplug the unit before cleaning.
7. Do not place objects on the unit or allow objects to obstruct the air inlet or outlet openings. For best purification, place your unit a minimum of 10 inches or more from walls or curtains, etc.
8. The use of attachments or accessories not recommended or sold by the product distributor may cause personal injury, damage to the unit, or property damage hazards.
9. This product is intended for normal domestic/household use only.
10. Do not attempt to disassemble the unit other than to replace filters or scent cartridge. Any attempt at disassembly will void the warranty.
11. Do not place the unit on a metal surface.
12. Do not use the unit in artificially hot or humid conditions or allow it to be used in any hazardous environment.
13. Keep it away from children.
14. Do not clean the machine with chemical solvent.
15. For best performance place the unit 36 inches above floor level near your pets bed, litter box or cage
16. For sudden odors, turn fan to "high speed" and turn on Activated Oxygen to clean room air rapidly. Return the fan speed to a lower setting about 30 minutes later. The Activated Oxygen will automatically turn itself off in 2 hours or when it is manually switched off.
17. For continuous use, set the fan speed to a lower speed and allow the unit to run 24/7 for fresh and clean air.
18. NEVER wash the HEPA/Activated Carbon Filter. The filter is made of special paper and is not washable. Washing will ruin it.

## Key Features and Functions of the Pet Pro 3800

- ✓ Removes pet dander, dust, pollen & mold spores, along with pet & chemical odors
- ✓ On-Demand sanitizer eliminates unwanted odors and kills airborne micro-biologicals
- ✓ Washable Foam Pre-Filter extends filter life
- ✓ Purifies over 320 sq. ft.
- ✓ Quiet 3-speed fan
- ✓ 4-stage automatic timer
- ✓ Optional scent canisters available

## Important Controls & Components

## Maintenance

CAUTION: ALWAYS UNPLUG BEFORE SERVICING

1. Remove the dust from the ion outlet with dry brush after every 30 days of use.
2. Clean the Washable Pre-Filter with cool fresh water every 2 months to remove the dirt and odors, and replace it when dry. (DO NOT REINSTALL UNTIL COMPLETELY DRY!)
3. Place the HEPA filter boxes in the sunlight for 1~2 hours monthly. This will help kill any living biologicals that may become trapped in the filter.
4. The service life of the HEPA filter depends on the usage time on the machine and the degree of air pollution. In general, HEPA filters should be replaced every 6 months. You can decide by comparing with the color of "Dirty Filter Indicator" found below. If the white HEPA filter is as dark as the middle color indicator below then please replace it.

## Troubleshooting

Trouble	Possible Problem	Treatment
Not Working	Plug does not connect well with socket. Trouble in internal electric circuit.	Turn on switched outlet. Insert the plug again. Call Real Spirit Customer Service.
Loud Fan Noise	The room is too humid. The Pre-filter or HEPA filter is too dirty.	Stop using Humidifier. Move to less humid room. Clean the Pre-filter and/or replace the HEPA filter.
Unusual Noise	There is foreign body in the machine or the parts are incorrectly fitted.	Immediately turn off and unplug the unit. Contact Real Spirit Customer Service.
